

For Product Demos or to schedule a 1-1 meeting with an Ikon Customer Care, Technical Team Or Services Representative, please email Daniel Swann for immediate availability, at dswann@ikonscience.com.

LIVE BOOTH PRESENTATIONS

TUESDAY, DECEMBER 8

3:00 CET

Integrated Simulation-to-Seismic and Seismic Reservoir Characterization in a CO2 EOR Monitoring Application

- Alan Mur, Regional Product Champion

4:30 CET

Multi-scenario Multi-realization Seismic Inversion

- Kester Waters, Senior VP of Global Services

WEDNESDAY, DECEMBER 9

3:00 CET

Recognizing The Importance of Quantifying and Correcting For Total Organic Carbon (TOC) To Reduce Uncertainty in Pore Pressure Prediction (Live)

- Sam Green, Technical Manager - Wells, EMEA

4:50 CET

Overcoming Industry Challenges Through Technology Transformation

- Denis Saussus, CEO

5:20 CET

Ikon BizTalk Session (over in the BizTalk conference track)

- James Tomlinson, Product Manager

THURSDAY, DECEMBER 10

2:40 CET

Ikon BizTalk Session (over in the BizTalk conference track)

- James Tomlinson, Product Manager

3:00 CET

Monitoring Pore Pressure in Real-time: Capabilities, Case Study and Implications

- Tim Sheehy, Well Services Manager

4:30 CET

Yet Another Dry Hole: Using Digital Transformation to Improve Drilling Success

- Nick Huntbatch, Product Manager QI Applications

5:00 CET

Join Alex Edwards, Product Manager - PP and GM Applications chairing the Petroleum Systems session (over in the Geology conference track)

FRIDAY, DECEMBER 11

2:00 CET

Facies Based Inversion – A New Paradigm In Seismic Reservoir Characterization

- Kester Waters, Senior VP of Global Services

4:30 CET

Creating and Calibrating 1D Geomechanics Models: Integrating Log Data, Drilling Events, Field Tests, and Laboratory Data

- Randy Hickman, Senior Geomechanicist
